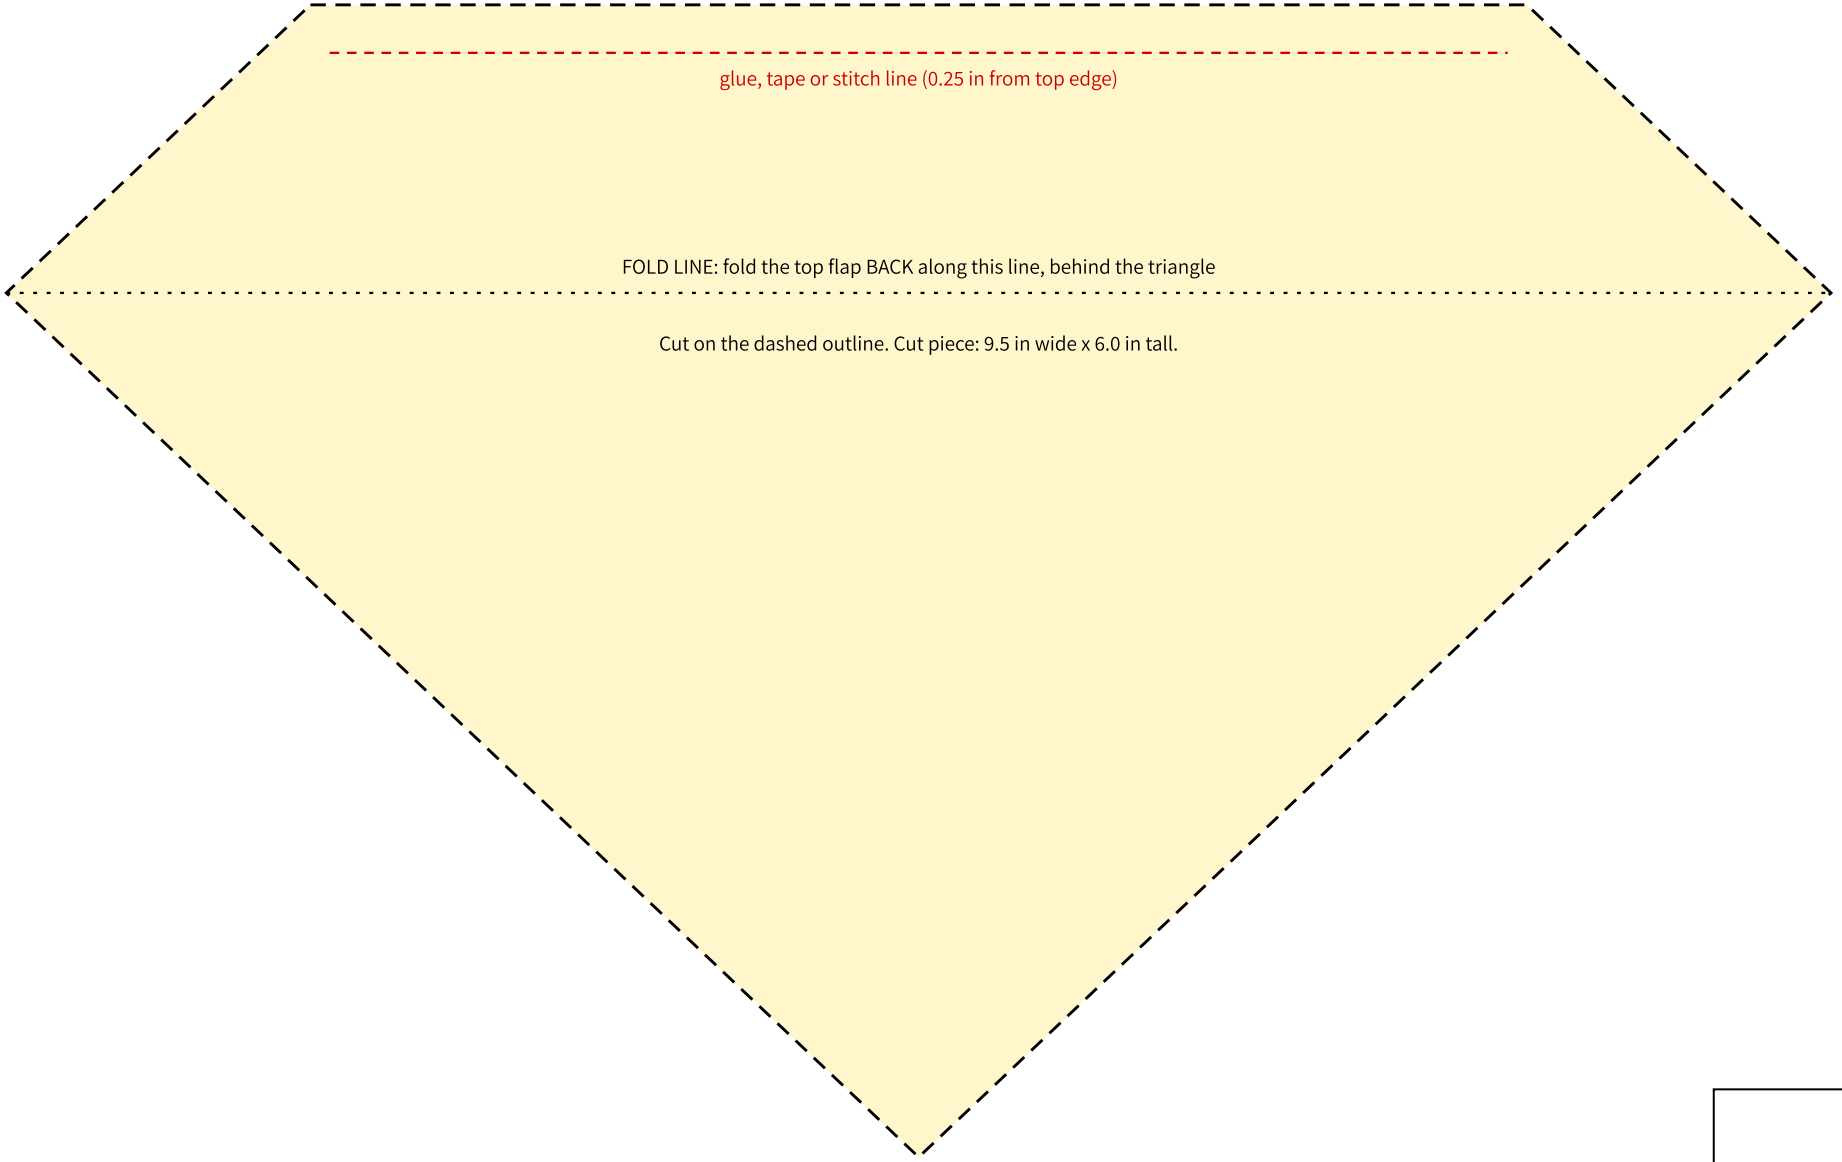
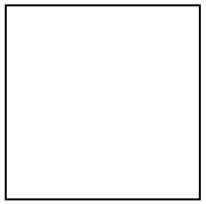
Yellow bandana pattern, medium

CUTTING TEMPLATE FOR FABRIC. NOT A WEARABLE PAPER ITEM.





Scale check: this box must measure exactly 1 in (25.4 mm)

Tunnel size: flap 1.5 in minus 0.25 in seal = 1.25 in (32 mm) flat opening. Made for a flat collar or leash loop up to 1 in (25 mm) wide. Finished bandana hangs 4.5 in (11 cm) below the collar and is 9.5 in (24 cm) wide at the collar. The flap is the mirror of the front, so the folded edges line up. No seam allowance on the sides, use non-fraying fabric (t-shirt jersey, fleece, felt) or pinking shears.

You need: yellow fabric, scissors, pins, iron-on hem tape or fabric glue (or needle and thread).

1. Print at 100 percent (Actual size) and check the scale box. **2.** Pin the paper to a single layer of fabric and cut the outline. **3.** Fold the flap back along the fold line and seal it along the red line. **4.** Slide a flat collar through the tunnel. No knots around the neck. Try it on a scrap first, supervise your dog, take it off if it bunches up or gets chewed.
